Art Unit: 1614

Claims 1-6 are presented for examination.

The remarks filed on July 2, 2003 have been received and entered.

Claims 1-3 are again rejected under 35 U.S.C. 103 as being unpatentable over the Chemical Abstract 532428 for the reasons set forth on page 2 of the office action of January 21, 2003.

Applicant's arguments and remarks have been carefully considered, but are not deemed to be persuasive. Applicant's claims are drawn to a composition, which the different use of such composition does not create a patentably distinct composition. Thus, to pick a specie from a genus with no support to the advantage of such specie and alleging criticality to the different use of such specie does not create a patentably distinct composition. Applicant has presented no evidence to establish the unexpected or unobvious nature of the claimed invention, and as such, claims 1-3 are properly rejected under 35 U.S.C. 103.

Claims 4-6 at present time are considered to be allowable.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of
